

GREASE iT

Product Description & Application

GREASE iT is a premium, lubricating and cleaning gel for dry running units.

Features & Benefits

- Ready to Use Gel with two-in-one lubricating.
- Excellent transfer properties without dripping while rollers in motion.
- Prevents heat build up due to friction in dry running units.
- Prevents de-lamination of roller surface and loss of plasticizers.
- Gently cleans, restoring ink acceptance and resilience of roller surface.

Usage Instructions

Apply GREASE iT on the rollers with a ink spatula or ink knife. Run in the roller train. Stop the machine and check for uniform (even) coverage. Restart the machine. On completion of the run, clean off the residue with a regular press wash up solvent followed by water wash to prepare the unit for printing.

Packing Quantity

2.2 lbs (1 Kgs.)
